At MacDermid Enthone, we are committed to providing long-term value to our customers, not only through our innovative products and technologies, but also through our industry leadership and technical expertise. One of the ways we support our customers and partners is by offering live webinars that explore the latest trends and developments in the surface finishing industry.

We are excited to announce that these webinars are [now available on-demand](#), allowing you to access valuable insights anytime, from anywhere. Whether you're interested in decorative plating, advanced anti-corrosion solutions, regulatory updates, light metal technologies, or sustainability, our webinars cover a wide range of topics shaping the future of our industry.

We invite you to explore our content library, and if there is a topic you'd like us to cover in a future webinar, [connect with us](#)! We value your input and look forward to providing even more relevant content to help you stay informed and ahead of the curve.

[Explore our on-demand webinars](#) today and stay connected with the latest industry insights!
